Contents

1 Introduction to Object Oriented Programming Concepts 1 – 16

1.1	Introduction	1
1.2	Evolution of Software	2
1.2.1	Programming Language Generations	2
1.3	Programming Paradigms	4
1.3.1	Procedural or Modular Programming	4
1.3.2	The Object Oriented Programming	6
1.4	Basic Concepts of OOP	8
1.4.1	Data Abstraction	9
1.4.2	Encapsulation	9
1.4.3	Inheritance	10
1.4.4	Polymorphism	11
1.5	Advantages and Disadvantages of OOP	12

2 Introduction to Java 17 – 34

2.1	Introduction	17
2.2	About Java	18
2.2.1	History of Java	18
2.2.2	Understanding Bytecode	19
2.2.3	Characteristics of Java	21
2.3	Simple Java Program	21
2.3.1	Types of Java Programs	22
2.4	BlueJ — A Quick Introduction	22
2.5	Starting BlueJ	23
2.6	Writing Programs on BlueJ Environment	23
2.6.1	Creating a BlueJ Project	23
2.6.2	Adding a New Class to Your Project	24
2.6.3	Editing a Class Code	25
2.6.4	Compiling the Source Code in BlueJ	26
2.6.5	Saving Your Code	26
2.6.6	Creating Objects in BlueJ	27
2.6.7	Executing an Object's Method	28
2.6.8	Saving Output from the Console Window	29
2.6.9	Printing Your Source Code	29
2.6.10	Closing a Project	29
2.6.11	Opening an Existing BlueJ Project	29
2.7	The Method main()	29

3	Elementary Concept of Objects and Classes	35 – 44
3.1	Introduction	35
3.2	What is an Object ?	36
3.3	What is a Class ?	36
3.4	More on Objects	37
3.4.1	<i>Objects Encapsulate State and Behaviour</i>	38
3.4.2	<i>Message Passing between Objects</i>	39
3.5	Implementing Classes and Objects in Programming Terms	39
3.5.1	<i>More on Abstraction</i>	39
3.5.2	<i>Classes as Abstractions</i>	40
3.5.3	<i>Classes as User Defined Type</i>	40
3.5.4	<i>Objects are Instances of the Class</i>	41

4	Values and Data Types	45 – 65
4.1	Introduction	45
4.2	Java Character Set	46
4.3	Tokens	46
4.3.1	<i>Keywords</i>	46
4.3.2	<i>Identifiers</i>	47
4.3.3	<i>Literals</i>	48
4.3.4	<i>Separators</i>	51
4.3.5	<i>Operators</i>	51
4.4	Concept of Data Types	51
4.4.1	<i>Primitive Datatypes</i>	51
4.5	Variables	54
4.5.1	<i>Declaration of a Variable</i>	54
4.5.2	<i>Initialization of Variables</i>	54
4.6	Constants	58

5	Operators and Expressions	67 – 103
5.1	Introduction	67
5.2	Operators in Java	68
5.3	Arithmetic Operators	68
5.3.1	<i>Unary Operators</i>	68
5.3.2	<i>Binary Operators</i>	69
5.3.3	<i>Increment/Decrement Operators (++ , --)</i>	70
5.4	Relational Operators	72
5.5	Logical Operators	73
5.6	Assignment Operators	74
5.7	Conditional Operator ? :	76
5.8	The new Operator	77

5.9	The .(dot) Operator	79
5.10	Operator Precedence	81
5.11	Expressions	82
5.11.1	Arithmetic Expressions	82
5.11.2	Type Conversion	85
5.11.3	Boolean Expressions	88

6 Methods/Functions 105 – 133

6.1	Introduction	105
6.2	What are Methods ?	106
6.2.1	Why Methods ?	106
6.3	Method Definition	108
6.3.1	Method/Function Prototype and Signature	108
6.3.2	Method Types	110
6.4	Accessing a Method/Function	117
6.4.1	Invoking Static and Non-static Methods	117
6.4.2	Actual and Formal Parameters	119
6.5	Returning from a Method/Function	119
6.5.1	The return Statement	117
6.5.2	Returning Values	119
6.6	Scope of Variables	119

7 Input in Java 135 – 154

7.1	Introduction	135
7.2	Variable Memory Allocation and Initialization	136
7.3	Introduction to Packages	139
7.3.1	Importing Packages and their Classes	139
7.3.2	Benefits of Using Packages	139
7.3.3	Using Dates and Times Using Packages	140
7.3.4	Common Packages in Java	142
7.4	Obtaining Input Using Scanner Class	142
7.5	Types of Program Errors	145

8 Mathematical Library Functions 155 – 170

8.1	Introduction	155
8.2	Basic Functions of Math Class	156
8.3	Using Math Class Methods in Expressions	162

9 Conditional Constructs in Java 171 – 206

9.1	Introduction	171
9.2	Programming Constructs	172
9.3	Conditional Or Selection Statements in Java	173

9.4	The if Statements of Java	173
9.5	Nested if Statement	178
9.6	The ?: Alternative to if	184
9.7	The switch Statement	184
	9.7.1 Some Important Things to Know about Switch	190
9.8	The switch vs. if-else Statement	191

10 Iteration Constructs in Java 207 – 238

10.1	Introduction	207
10.2	Iteration Through Loops	208
	10.2.1 Elements that Control a Loop (Parts of a Loop)	208
10.3	The for Loop – Fixed Number of Iterations	208
	10.3.1 The for Loop Variations	213
10.4	The while Loop	216
10.5	The do-while Loop	221
10.6	Jump Statements	225
	10.6.1 The break Statement	226
	10.6.2 The continue Statement	229

11 Nested Loops 239 – 256

11.1	Introduction	239
11.2	Understanding Nested Loop	240
11.3	Statements break And continue in Nested Loops	247
	11.3.1 Labels and Branching Statements	249

12 Computing and Ethics 257 – 267

12.1	Introduction	257
12.2	Computer Ethics	258
12.3	Major Ethical Issues	259
	12.3.1 Individual's Right to Privacy	259
	12.3.2 Intellectual Property Rights	259
	12.3.3 Accuracy of Information	260
12.4	Hacking and Piracy	260
	12.4.1 Software Piracy	260
12.5	Getting Protected	261
	12.5.1 Protective Measures	262
	12.5.2 Preventive Maintenance and Trouble Shooting	263
12.6	Computer Crime	264
	12.6.1 Reasons for Computer Crimes	264
12.7	The Ten Commandments of Computer Ethics	265
